

World Society for Virology

# FIRST COMMITTEE MEETING

SUPPORTED BY SWEDISH RESEARCH COUNCIL

25-27 August 2019

Karolinska Institute, Stockholm, Sweden

MAIN TOPIC

BRONZE SPONSOR

**WSV** celebrating its foundation and inspiring its future

PARTNER SOCIETIES

## WSV Meeting 2019 Schedule

| Sunday, August 25 |  |  |
|-------------------|--|--|
| 18:00-20:00       | Welcome Reception, Elite Hotel Carolina Tower  | Kristina Broliden  |
| Monday, August 26 |  |  |
| 9:00-9:20         | Welcome remarks, opening of meeting;   | Kristina Broliden, Ahmed S. Abdel-Moneim   |
| 9:20-9:30         | Welcome remarks/slot for dignitary remarks   | Prof. Anna Martling, Dean, Karolinska Institutet   |
| 9:30-9:40         | Welcome remarks/slot for dignitary remarks   | Prof. Anna Färnert, Head of Division for Infectious Diseases, Karolinska University Hospital |
| 9:40-10:00        | <b>Group Pictures</b>  |  |
| 10:00-10:15       | World Society of Virology: From an idea to a reality   | Ahmed Abdel-Moneim   |
| 10:20-10:35       | South African mobile laboratory response to Ebola outbreak in West Africa - lessons learned. | Janusz Tadeusz Paweska   |
| 10:35-10:50       | MERS-CoV an emerging virus from the Arabian Peninsula  | Ziad Memish  |
| 10:50-11:30       | <b>Break</b>   |  |
| 11:30-11:45       | Interspecies transmission of bat   | Zhengli Shi  |

|                           |  |   |
|---------------------------|--|---|
|                           | coronaviruses.   |   |
| 11:45-12:00               | Emerging arboviruses in the Americas   | Laura D. Kramer                           |
| 12:00-12:15               | Maintenance mechanism of Dengue viruses during inter epidemic period                             | Vinod Joshi                               |
| 12.15-12.30               | Emerging SARS and MERS coronaviruses: From basic research to drug discovery                      | Deyin Guo                                 |
| 12:30-12:45               | Molecular evolution of hepatitis viruses and HIV in Latin America.                               | Flor Pujol                                |
| 12:45-13:00               | Mucosal factors of importance for susceptibility to HIV infection                                | Kristina Broliden                         |
| 13:00-13:15               | Pathogenesis of hepatitis C and other viruses: molecular basis and animal model application      | Kyoko Tsukiyama-Kohara                    |
| 13:15-13:30               | Involvement of persistent viral infections in the development of nervous system diseases         | Modra Murovska                            |
| 13:30-14:45               | <b>Lunch</b>   |   |
| 14:45-15:00               | Understanding and Targeting the Human Cytomegalovirus  | Michael Nevels                            |
| 15:00-15:15               | Epidemiology and clinical impact of emerging human parvoviruses                                  | Maria Soederlund-Venermo                  |
| 15:15-15:30               | Study, Detection, and Control of Foodborne Viruses.  | Matthew D. Moore                          |
| 15:30-15:45               | Development of novel viral vaccines for fish aquaculture   | Vikram N. Vakharia                        |
| 15:45-16:00               | Detection and genotyping of human enteric viruses in clinical and environmental samples          | Jesus L. Romalde                          |
| 16:00-16:15               | Emergence and evolution of new enteric viruses in animals  | Yashpal S. Malik                          |
| 16:15-16:30               | Spillover : Jumping viruses and the Risk of New Epidemic Diseases                                | Sayeh Ezzikouri                           |
| 16:30-16:45               | Zoonosis Science Center (ZSC) - a multidisciplinary platform for zoonotic research               | Åke Lundkvist                             |
| 16:45-17:00               | Viral causes of acute flaccid paralysis  | Begona Valdazo-Gonzalez                   |
| 17:30                     | <b>Group Networking</b>  |   |
| <b>Tuesday, August 27</b> |  |   |
| 9:00-9:10:                | WSV-Current and prospective plans  | Ahmed Abdel-Moneim                        |
| 9:10-9:20                 | Registering our society as non-profit : steps and latest update, rules to be followed afterward: | Matthew Moore                             |
| 9.20-9.30                 | WSV Bylaws: Inspiring experience from other societies  | Kristina Broliden<br>Laura D. Kramer      |
| 9.30-9.45                 | Election of the first president of the WSV: rules and criteria: Experience from ASV, SSV and IVS | Laura D. Kramer<br>Kristina Broliden      |
| 9.45-10.00                | Fund raising without asking for a membership fee, how to raise, IDEAS                            | Begona Valdazo-Gonzalez<br>Modra Murovska |

|             |  |  |
|-------------|--|--|
|             |  | Sabrina Schreiner<br>Vinod Joshi   |
| 10.00-10:15 | WSV online training on specific topics and accredited certificates form WSV: Is it possible                                      | Maria Soederlund-Venermo<br>Michael Nevels<br>Zhengli Shi  |
| 10.15-10:45 | Coffee break   |  |
| 10:45-11:00 | WSV webinars: Could we make WSV a platform to vaccines, diagnostic and pharmaceutical companies webinars: Research - partnership | Jesús L. Romalde<br>Michael Nevels<br>Sayeh Ezzikouri<br>Vikram N. Vakharia                            |
| 11.15-11.30 | WSV partnership with national and international societies-maximizing the mutual benefits   | Deyin Guo<br>Kristina Broliden<br>Laura D. Kramer<br>Matthew Moore                                     |
| 11:30-11:45 | WSV partnership with international bodies [WHO, FAO, OIE] and governmental organization  | Flor Pujol<br>Janusz Tadeusz Paweska<br>Modra Murovska<br>Ziad Memish                                  |
| 11:45-12:00 | Partnership to ORCID, Researchgate, LOOP, is it possible?  | Abdelouaheb Benani<br>Begona Valdazo-Gonzalez<br>Matthew Moore<br>Sabrina Schreiner                    |
| 12:00-13:00 | Lunch  |  |
| 13:00-13:15 | Hosting a journal vs. collaborating with already existed one   | Vikram N. Vakharia<br>Yashpal S. Malik<br>Zhengli Shi  |
| 13:15-13:30 | How to make our society useful to virologists  | Jawhar Charbi<br>Kyoko Tsukiyama-Kohara<br>Modra Murovska<br>Vinod Joshi<br>Sabrina Schreiner          |
| 13:30-13:45 | Best way to increase the number of membership from different countries   | Kyoko Tsukiyama-Kohara<br>Vikram N. Vakharia<br>Zhengli Shi  |
| 13.45-14.00 | Physical offices in different countries: Possibility and Obstacles: Chances and Challenges                                       | Janusz Tadeusz Paweska<br>Kyoko Tsukiyama-Kohara<br>Matthew Moore                                      |
| 14.00-14.15 | WSV educational resources  | Ake Lundkvist<br>Begona Valdazo-Gonzalez<br>Flor Pujol<br>Sayeh Ezzikouri<br>Yashpal S. Malik          |
| 14.15-14.45 | From First Meeting to First Conference: Task force Team and Plan:  | Jesús L. Romalde<br>Kyoko Tsukiyama-Kohara<br>Michael M. Nevels<br>Sayeh Ezzikouri<br>Yashpal S. Malik |
| 14.45-15.00 | Summary  | Ahmed S. Abdel-Moneim  |

|                    |                         |   |
|--------------------|-------------------------|---|
|                    |                         | Åke Lundkvist<br>Jesús L. Romalde<br>Kristina Broliden<br>Maria Soederlund-Venermo<br>Mahmoud Naguib<br>Matthew Moore |
| <b>15:00-15:20</b> | Closing Remarks/Adjourn |   |
| <b>15.30-16-30</b> | Tour of Karolinska      |   |
